2016 NATIONAL MEET TANUNDA (Adelaide) SA

Well its almost here yet again.

The National Meet, this time in Adelaide/Tanunda is, of course coming together nicely, however, it does need your input right now. If you have not received the booking form for the Meet, you will find it at the back of this Newsletter and on our Website as well as Facebook and the official Club Forum. Thanks go to all those that have sent in their booking. It is possible this year to make your booking and just pay the minimum deposit followed by instalments to make it more convenient.

Any Hoo, It's looking to be a great time yet again and one not to miss. I must say the SA Mob tend to put on a great event.

The Weintal Resort will be looking after us with some excellent facilities on site. If you are reading this on-line just click the links to take you there. There will be some Eureka

Driving through the Adelaide Hills, although it wont be torturous. It will be a nice gentle cruise through some interesting country

towns and of course the winery area of the Barossa Valley. The National Motor Museum in Birdwood will host us for the morning and early afternoon before a leisurely return, (different route) to our accommodation.

Should you have a few bits left over from your project, or you have something new to see, feel free to bring it along. There will be opportunities throughout the weekend to buy, sell or swap parts.

The Theme of this year's event is The National Meet. Wear your "T"Shirt from your first or favourite National Meet.

2016

Adelaide

(Tanunda)

21-23 October

2016

PURVIS EUREKA NEWS

There will be a display and other items of interest.

There will be some fun activities during the event we hope you will be participating in. Awards will be made.

A tradition started in Adelaide in 2006 will continue with an affordable Auction during the Saturday evening.

Sunday morning will be the Purvis Eureka Car Club AGM (on the premises) where all office bearers will stand down and members will vote for committee positions for 2016/17.

Lunch will be at your own discretion, however there is a fine bistro on the premises too, as well as a coffee lounge & Bar.

In the afternoon we will be heading to a local winery for the obligatory and mandatory Photo Shoot as well as an opportunity for some wine tasting and maybe a round of Croquet :-) on the lawn.

BOOKING Forms out NOW

RETROAUTOS

The September 2016 edition of Retroautos is now online. There's plenty of reading, and it is all free.

Click on this link: <http://issuu.com/retroautos>

This issue features the Vauxhall collection of George Seymour. All of his cars are quite rare. His 1968 Viva GT is one of only 50 currently on the road anywhere in the world. We chat with General Motors (GM) car design guru, Leo Pruneau, who developed the Viva GT.

Wayne Ryan talks about the restoration of his 1945 Holden pedal car and we celebrate the 50th anniversary of Mercury's Cougar.

In the photo feature, *Once Upon A Time*, we travel through parts of Canada and the USA in November 1960 checking out all the cool cars, including the GM Motorama in New York.

And we take a look at Dodge's 1955 La Femme, the brand's attempt to appeal to women car buyers.

RetroRacing gets us all misty-eyed, with never before seen photos of the demolition of the famed Liverpool Raceway in Sydney.

We know you will enjoy this edition of Retroautos. It is published with passion and with pride.

Thanks,

David

YOUTUBE

Mighty

Car Mods

Excited to announce that some Mighty Car Mods episodes will air on Discovery Channel in September. Over the years we've been contacted by numerous TV networks and production companies that usually have this idea that we should change what we are doing, or add a host, relocate to USA, or the UK, make it fundamentally different or change it into more of a 'format' that fits with their TV audience. But we're actually entirely happy making our own videos, our own way on YouTube.

And then Discovery Channel came along and said "What you do is already awesome. Let's just put that on TV". So we started working about 6 months ago on TV versions of our existing episodes which will kick off on Tuesday nights in September.

Similar to when QANTAS started broadcasting our episodes in planes, the episodes airing on Discovery Channel are episodes that have already been broadcast on our YouTube channel, just re-edited to fit within the time constraints of TV so there's no need to worry that you'll be missing out on anything if you don't have cable. We're still making our regular Mighty Car Mods episodes on YouTube as we always have and they'll always be free and never behind a paywall.

Mighty Car Mods will be the first Australian made Automotive show on Discovery and we are proud that we've hand made this show entirely independently without a publisher, broadcaster or production company. Just a bunch of mates hanging out making cars movies, music and mods.

Being on TV was never really a goal for us, but we're excited that a whole new group of people will get to see MCM for the first time on their TV's at home.

Tuesdays from 6 September at 9.30pm AEST

Australian and New Zealand TV Premiere Exclusive to Discovery Turbo

Discovery Networks have partnered with Mighty Car Mods -Aussiecar enthusiasts

Blair Joscelyne (aka Moog) and Marty Mulholland - to bring the duo's classic episodes to television for the first time, exclusively on Discovery Turbo from September.

The world's number one online DIY auto show, Mighty Car Mods demonstrates fantastic automotive projects that viewers can do themselves at home. Variety Magazine recently ranked the pair in the world's Top 12 most influential digital stars and with over 1.9 million YouTube subscribers and up to 4.2 million views per week, it's clear they have a dedicated and passionate audience.

"It doesn't matter how old you are, or where you're from, there's a universal appeal with cars, and making them faster. We love driving and modifying cars on the cheap and having loads of adventures while we do it. Over the last eight years we're thrilled to have received over 300 million views on YouTube and now we're excited that a whole new audience will get to experience Mighty Car Mods for the first time on their TVs at home," said Moog.

Mighty Car Mods: Mod Max

Australian and New Zealand TV Premiere - Tuesday 6 September at 9.30pm AEST

In the first Mighty Car Mods episode to air on Discovery Turbo, Marty and Moog are on a mission to create an Armageddon ride inspired by the phenomenal stunt cars from the Mad Max: Fury Road blockbuster. Starting with a rather unconventional base car, they set out to turn a Nissan Silvia, with the guts of a Holden Commodore, into a post-apocalyptic thrasher on wheels fit to rule the desert wastelands.

And they're not making it easy on themselves - with just three days to get the job done, the pressure is on to get this unique car fitted out, modified and ready to roll. Along the way they meet some of the crew who worked on the film, who help to get their wheels end-of-the-world worthy, before they put it to the ultimate test.

<http://www.discoverychannel.com.au/mighty-car-mods-coming-to-discovery-turbo/>

ALSO ON YOUTUBE,

(for those not in the shed.)

I know this is not a Eureka, nor is it a Kit Kar, but it's two guys making their own car their way. Taking an Austin Mini and shoe horning a Toyota Celica GT4 wheel drive turbo'd engine gearbox AND running gear. Absolutely totally awesome. Fantastic engineering and bloody funny, (it's English). Currently 13 episodes on Youtube, (30min each). Highly recommended, but you need to start at episode one

[Project Binky - Episode 1 - Austin Mini GT-Four - Turbo Charged 4WD Mini](#)

PURVIS EUREKA NEWS

From the SECRETARY

Well here we are now looking at the 10th edition of this Newsletter. If you would like to see something in particular just let us know. just send me an e-mail.

Part of the job is to keep accurate records of Members, however since taking on the role, I have found many incorrect addresses, both on the home/mailling address and on e-mail. So if you have recently (in the last year or two), changed your circumstances, please e-mail me at

secretary@purviseurekacarclub.com.au The Newsletters are also made available on the Main Website should you have missed a copy. If you receive a copy in the mail, then our information on your e-mail address is incorrect. It would be appreciated if you drop me a line with your updated details. If you would prefer to receive the Newsletter via mail rather than e-mail, please advise & I will put you on the mailing list.

Member renewals are coming in thick n fast on top of about 5 new members. Member cards and new packs go out every week.

THE WWW

THE main CLUB site www.purviseurekacarclub.com.au has had over 71,898 Visitors as at Feb 2015 . This is the hub of all our WEB activity, hosting the static site, Wiki & Forum . There are now 224 on the FORUM with 9,822 posts in 1,432 topics.

CYCO again wins the top Poster award this month.

Currently 329 people are now on our FACEBOOK Page. This has been quite a positive for the club, having pulled a number of Eureka's from obscurity. There are still a number popping up for sale.

Following the success of The Newsletter it is now in a different and more readable format on-line. It is now available from our Website along with previous issues. [HERE](#)

FOR THE
INDIVIDUAL

secre-

At the **Pinery Bushfire Relief Fund-raiser**. 300 plus Hot Rods, Customs plus one Eureka gathered at the Mallala Oval (South Ozz) in aid of the Pinery Bushfire victims. This was the Sunday before ANZAC Day and interestingly, (although it was difficult to comprehend), I'd be at another Car Show, the following Sunday, see the bit on *Stoneleigh*, next page.

Spotted laying low at the 7 day VALLA VW SHOW event in Coffs Harbour NSW in July/ August

PURVIS EUREKA NEWS

STILL OUT n ABOUT

Someone was lucky enough to get to the biggest Kit Kar Show in the world, however, not lucky enough to actually bring one back to OZ. **STONELEIGH** in the UK can be seen 5 acres of Kit cars over a two day period on the first weekend in May every year. The UK seem to have an easier time with Kits than we do in OZ. Here are a few pics from the 2016 Show, but more can be found on the Show Website. It's always great to catch up with the NOVA gang especially as one of our own (Bushboy), is now the Chairman of the NOVA Car Club.

Here's only a few of the thousands on display and yes it did rain, but there were many more attractions in the pavilions, from New Kits to parts, lots of parts. Then there were the rides, from a Dakar Rally style through mud to the Westfield Drift track.

Dear Member/Eureka Owner,

This past year we have seen an increase in membership of the club. This is great news as an increase means we have more contributors, are able to do more for our members, and the club has a greater voice.

It is that time of year again when membership subscription fees for the Purvis Eureka Car Club of Australia Inc. are due. We look forward to receiving your membership renewal and hopefully catching up with you at the next National Meet, on line, or at a State Mini-Meet and you can now stay in touch with our Newsletter, or on our Facebook page, (contributions welcome).

Membership is still only \$40 per year and is due from the 1st July 2016, Membership fees can be paid via cheque, Australia Post Money Order or by Electronic Funds Transfer as per the details below.

If paying by cheque or money order then please fill out and sign and date the renewal slip below and return it with your membership fees to the address at the top of this page. Please make all cheques and money orders out to Purvis Eureka Car Club of Australia Inc.

Alternatively, payment can be made by EFT as follows:

Bank: Bendigo Bank
Account Name: Purvis Eureka Car Club of Australia Inc.
Account number: 124933961
BSB number: 633 108

Please put your name in the description so that we can identify your payment and don't forget to email the secretary at the email address below to let us know that you have paid via EFT.

Regards

Philip Brow
